

Abdul Samad

Full Stack Developer · Node.js · PERN / MERN · TypeScript

Karachi, Pakistan — 0330-5786110

samadpakhtoon09@gmail.com — github.com/ABDLSamaD — linkedin.com/in/abdul-samad — [Portfolio](#)

Summary

Full Stack Developer with **1+ year of professional experience** building production web applications using **Node.js, Express.js, React, TypeScript, PostgreSQL, MongoDB, and Google Cloud Platform**. Experienced in designing REST APIs, authentication flows, database-backed dashboards, cloud deployments, and scalable backend modules for live e-commerce systems. Strong hands-on experience with **PERN/MERN stack**, Shopify integrations, OAuth, billing systems, secure sessions, and production debugging across multiple live merchant stores.

Skills

- **Languages:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, OAuth 2.0, Session Authentication, Socket.io, Mongoose
- **Frontend:** React.js, Vite, Redux, Tailwind CSS, Material UI, Responsive UI, Component-Based Architecture
- **Databases:** PostgreSQL, MongoDB, Firestore, Cloud SQL, Aggregation Pipelines, Query Optimization
- **Cloud & DevOps:** Google Cloud Platform, App Engine, Cloud Run, Cloud SQL, Cloud Storage, Secret Manager, GitHub Actions, Vercel, Render, Netlify
- **Shopify:** GraphQL Admin API, Storefront API, Billing API, App Bridge, OAuth, Theme App Extensions, Embedded Apps
- **Tools:** Git, GitHub, Postman, Figma, Jest, Cypress

Experience

Glacier Agency

Full Stack Developer

Toronto, Canada (Remote)

May 2025 – Present

- Designed, developed, and shipped production-grade full-stack applications using **Node.js, Express.js, React, TypeScript, and PostgreSQL** for e-commerce clients.
- Built scalable REST APIs, authentication flows, database modules, and merchant-facing features across multiple live production applications.
- Developed custom Shopify integrations for **3+ live merchant stores**, handling product data flows, storefront behavior, session token authentication, and deployment.
- Set up and maintained **Google Cloud Platform** infrastructure including App Engine, Cloud SQL, Cloud Storage, and Secret Manager for production applications.
- Implemented backend logic for file uploads, pricing rules, billing workflows, product customization, and secure merchant settings.
- Collaborated in a multi-developer codebase using Git branching, pull requests, code reviews, and production deployment workflows.

Education

BS Computer Science

University of Sindh

CGPA: 3.1 / 4.0

2020 – 2023

Jamshoro, Sindh

Projects

Presia – Shopify Prescription Eyewear App

- Built and published a production Shopify application that enables merchants to add prescription eyewear and contact lens flows to their storefronts.
- Developed the application with **PERN stack and TypeScript**, using PostgreSQL on Cloud SQL and deployment through Google App Engine.
- Implemented Shopify OAuth 2.0, App Bridge, embedded admin experience, session token authentication, and merchant-specific configuration flows.
- Built a pricing engine for tax calculations, auto-discounts, currency conversion, price overrides, and flow-based product customization.

- Integrated Google Cloud Storage for prescription file uploads and managed production infrastructure through GCP services.
- **Technologies:** TypeScript, Node.js, Express.js, React, PostgreSQL, Google App Engine, Cloud SQL, GCS, Shopify API, OAuth 2.0

Alira – Shopify Face Measurement App

- Contributed to a live Shopify application where customers measure face dimensions through camera or photo upload for eyewear size recommendations.
- Built backend and admin features using **Node.js, Express.js, React, Vite, Firestore, and Shopify APIs**.
- Implemented per-shop widget settings in Firestore, allowing merchants to configure measurement fields and display options.
- Integrated Shopify Billing GraphQL API with plan and quota tracking backed by Firestore.
- Connected measurement data with cart line item properties so sizing information flows into order fulfillment.
- **Technologies:** Node.js, Express.js, React, Vite, Python, MediaPipe, Firestore, Shopify API, Billing GraphQL API

Electrica – Electrical Contractor Web App

- Built a multi-user MERN stack application for electrical contractors to manage clients, contracts, project phases, complaints, and real-time communication.
- Designed role-based dashboards with separate permissions for admins, clients, and contractors.
- Created project tracking modules with daily progress logs, material usage reports, timeline views, and approval workflows.
- Implemented secure authentication using OTP login, session verification, HttpOnly cookies, SameSite, and Secure cookie settings.
- Added real-time chat and complaint management using Socket.io for instant client-contractor communication.
- **Technologies:** React, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, Socket.io, REST APIs, Vercel, Sessions, OTP

Cinema Ticket System

- Built a responsive seat booking system with real-time seat selection, booking validation, and double-booking prevention.
- Designed REST APIs and MongoDB models for movies, showtimes, seat status, booking data, and ticket generation.
- Used MongoDB aggregation pipelines and indexing to improve backend response time by over **30%** under higher load.
- **Technologies:** React, Node.js, Express.js, MongoDB, REST APIs, Material UI, Tailwind CSS, Git

MERN Portfolio

- Built a responsive developer portfolio using React and Tailwind CSS to showcase projects, technical skills, and live application links.

Key Achievements

- Published and maintained a production Shopify application on the **Shopify App Store**, serving live merchant stores.
- Built and deployed backend systems with **Node.js, Express.js, PostgreSQL, MongoDB, Firestore, and Google Cloud Platform**.
- Designed production features involving **OAuth, billing, secure sessions, file uploads, pricing logic, and merchant-facing dashboards**.
- Delivered full-stack features across multiple live e-commerce projects with focus on maintainability, scalability, and production reliability.

Certificates

- **ICT & IEEE Based Mini Project Exhibition** — University of Sindh, Jamshoro May 2022
- **MERN Stack Development Course** — Hazza Institute of Technology Sep – Nov 2023

Languages

- **English** — Professional Proficiency
- **Urdu** — Native / Bilingual Proficiency
